LARGEST CIRCULATION OF ANY DAILY PAPER IN ANY MISSOURI TOWN OF 5000 POPULATION

MARYVILLE, MISSOURI, THURSDAY, OCT. 1, 1914

NO. 103.

## GIVE AUTO-POLO

MARYVILLE WILL SEE FIRST EVENT TOMORROW.

## HERE FOR TWO GAMES

Modern Sport That Spreads Over Two Countries to Be Shown—Is Dangerous Practice.

Auto-polo, the newest of red blood breeders, and a game which has swept not only this country but England as well, will be shown in Maryville for the first time tomorrow afternoon at the fair grounds. The management of the two teams—Americans and British—promises excitement throughout—and mayhap, an accident, though that is to be avoided as much as possible.

The experts in motordom will arrive here tonight or early tomorrow morning from Shenandoah, Iowa, where they are putting on the modern game. They will go from here to Springfield for four games, Maryville and Springfield being the only Missouri towns to be visited by the polo players this time. Games will be played here tomorrow afternoon and Saturday afternoon. Both games begin at 3 o'clock.

Undoubtedly auto-polo as it will be presented here is the most expensive sport being played in America today. The cars alone, equipped as they are, represent a large sum of money, as it is necessary to rebuild and strengthen them after they leave the factory.

The two teams, the British and the American, carry three cars each. This is necessary for the games as so fast and so rough that a polo car is apt to be incapacitated for further service at any moment. The principal troubles is with the tires, of course, for the quick turns, long skids, and constant reversing, cause innumerable blow-outs. The engines often become overheated, too, and place the cars in the automobile hospital, but there are no long delays, for a "fresh" machine is

always standing in readiness for the players.

As may be surmised the expense of keeping the cars in condition for service, the large number of repairs, new tires, and mechanic hire, reaches a large total. The depreciation on the cars is also considerable, the average life of a polo auto not being extensive.

### Go Duck Hunting.

Five ducks out of a "thousand observed," was the outcome of two hunts, taken yesterday afternoon and again this morning, on the 102 river by a hunting party consisting of Police Chief E. C. Moberly, Steve Viles, John Coleman, Arthur Garten, City Attorney W. H. Crawford and W. A. Burris. Chief Moberly reports that they saw approximately one thousand ducks on the river. Calculation proves that they then shot one duck out of each two hundred.

### JUDGE ELLISON IS 61.

Judicial Exponent Born 1853, Has Lived Here 34 Years.

Judge William C. Ellison is celebrating his sixty-first birthday anniversary today and his many friends over the district are wishing him a happy birthday and many more of them.

Judge Ellison was born in Lewis county, October 1, 1853. He is a son of James Ellison, who was for years a judge of the twenty-seventh judicial circuit of this state.

The youth of Judge Ellison was spent in attending school and upon making choice of the practice of law, a profession he commenced reading under the direction of his father. After a most thorough preparation he was admitted to the bar in 1873. He soon removed to East St. Louis, where he remained until 1880. He then came to Maryville, where he formed an association with S. R. Beech, now a resident of San Diego, Calif. He was connected with him for six years.

Judge Ellison later formed an association with John Edwards.

In 1894, he was the democratic candidate for congressman of this district, but was defeated by George C. Crowther of St. Joseph. This was the year of the republican landslide in Missouri.

Judge Ellison was appointed circuit judge of this judicial circuit in October, 1903, by Governor Dockery to succeed Gallatin Craig, who resigned on account of ill health. He was elected to that position in 1904 and also re-elected in 1910 for a term of six years. Judge Ellison stands high among the legal profession of the state and also as one of the very best and ablest circuit judges in the state. He is called frequently to try cases in other districts.

## TRY GRAHAM BOY

TESTIMONY FOR AND AGAINST DANIEL TAYLOR STARTS.

## GUNN CASE COMES NEXT

Alleged Murderer of Leonard Huddle Before Court Tomorrow—One of Six Liquor Charges Proven.

The trial of Daniel Taylor of near Graham, charged with carnal knowledge with Alice Fay Galbraith, a year ago, occupied the entire morning and bids fair to take all afternoon in circuit court. The trial is the most sensational to come before this term and apparently will be one of the hardest fought legally. The court room was crowded all morning, many women being in the audience, some of them witnesses. The selection of a jury was finished at 10:30 o'clock when testimony began.

The complainant was not placed upon the witness stand until shortly before noon. Trembling and with her handkerchief to her face throughout the questioning and cross questioning, Miss Galbraith told of the alleged assault in the summer of 1913 and of the child born to her last April. She said she was but a few weeks more than 15 years old at the time of the alleged crime.

According to her Taylor, who is now 20 years old, began working on the farm of her father near Graham in March and continued until the following July. The assault is declared to have been committed just before he quit.

The defense began submitting testimony at 2 o'clock this afternoon and finished an hour later, when a short recess of court was taken. Rebuttal of several witnesses by the state and perhaps some by the defense will close the trial. The case is expected to go to the jury about 4 o'clock this afternoon. Only Taylor and five character witnesses were placed on the stand, in behalf of the defense. Taylor admitted improper conduct about twenty-five times, but said that she consented in each instance.

The jury that is hearing the case is composed of Thomas Cunningham, Charles Hanna, I. S. Dickerson, John Dowden, Edward Bushy, Edward Shreve, Joseph Holker, John Manorgan, John Farnan, Emmett Bishop, Henry Neff and Brice Wilson.

The state is represented by Prosecuting Attorney Wright and his assistants, M. E. Ford and Cook, Cummins & Dawson, while the defendant's attorneys are Shinabargar, Blagg & Ellison.

The trial will take up all of today's session in court. The court room was filled all morning. About forty witnesses have been subpoenaed, two-thirds of them being for the defense.

The trial of Roy Gunn, charged with second degree murder, will be called after the Taylor case.

The selection of a jury to try Roy Gunn is then expected to follow. However the taking of testimony is not expected to begin until tomorrow unless a night session is held.

In the trial of Flora Pollen on a second count of giving intoxicating liquor to a minor, the jury returned a verdict of not guilty. In the first count, the jury found her guilty and gave her a fine of \$40 as announced in yesterday's paper.

There were four cases against Lena Halley, charged with giving intoxicating liquor to a minor. In the first case, the jury failed to agree and was discharged. In the second case, the jury returned a verdict of not guilty. The other two cases were dismissed by the prosecuting attorney.

The case of Richard May, charged with gaming, was continued by agreement.

### HOPKINITE FILES BIG SUIT.

Shipper Sues Burlington Overcharged Him \$2,021—Seeks Treble Amount.

A suit for \$6,063.39 has been filed in St. Joseph against the Burlington railroad by Charles Bebout an extensive livestock shipper of Hopkins. The suit by Bebout is one of the first to attempt to force the refunding of alleged overcharges under the new Missouri maximum freight rate law.

Bebout declares the railroad overcharged him to an amount of \$2,021.13. He seeks treble that amount, as provided in the revised statutes relating to the maximum rate law. The shipment which consisted of several cars of stock on which overcharges are alleged, was made from Hopkins to St. Joseph in June, 1907.

#### GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make it thick, glossy, wavy, luxuriant and remove dandruff—Real surprise for you.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandeline hair cleanse." Just try this—moisten a cloth with a little Dandeline and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandeline dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Dandeline from any druggist or toilet counter, and just try it.

Plans for a school of methods in Maryville next January were discussed and a movement begun to arrange for the instruction here.

Dr. C. C. Drummond, missionary pastor of the Christian church of this city, who is situated at Hardia, India, delivered the closing sermon at the Chillicothe convention.

The convention was attended by the Rev. R. L. Finch, pastor of the First Christian church of this city, Clyde C. Trapp of the Graham church and William Mountjoy of the Palestine church.

##### Deafness Cannot Be Cured

Real applications, as they cannot reach the inner portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Also cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. J. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

There is nothing to stick to your stocking, nothing to cause inflammation or rawness, nothing to press on or around the corn. You apply it in 2 seconds. No more knives, razors, scissors or files, with their blood-poison dangers. Try "GETS-IT" for that corn, callus wart or bunion.

"GETS-IT" is sold by druggists everywhere. 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. "GETS-IT" is sold in Maryville by O'ear-Henry Drug Co.

## The Monarch in Course of Construction

Every door frame is Malleable iron every angle bar is Malleable iron.

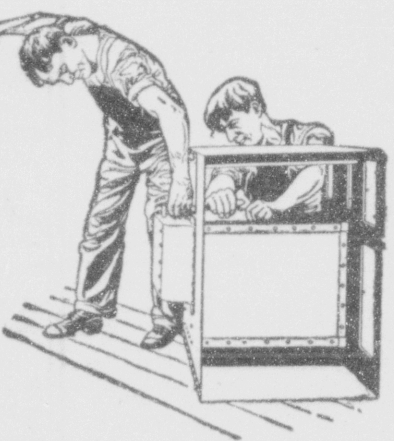

The Body of The Monarch

The inside wall is annelled steel, the center wall is of asbestos stove board, the out-wall of American planished steel.

What is Malleable Iron?

The best soft gray cast iron annealed and when thoroughly annealed becomes the best heat resisting iron used in range construction. Every joint in the Monarch is riveted and is gas and air tight. For the rivets are of the same temperment as the material they hold together thus making the expansion equal. The construction of the fire box either makes or destroys the life and efficiency of the range and this is the Monarch's strongest point. Let us show you why.

For this week we will give with each Monarch a \$12.50 set of 20 year guaranteed Aluminum Kitchen Ware.

## HEALTHY HAIR SOFT, FLUFFY AND RADIANT

Beautiful hair does not just happen to be so, but is always a matter of care and proper nourishment of the hair roots. No matter if your hair is falling out, stringy, lifeless and full of dandruff, Parisian Sage, an inexpensive tonic, sold by all druggists, is all that is ever needed. It nourishes the hair roots and stimulates the growth of new hair. Even dandruff is entirely removed with one application, and itching scalp and falling hair cease; your hair will be bright, vigorous, soft and fluffy.

Whether your hair is oily, dry or brittle, Parisian Sage immediately removes the cause, and by toning up the scalp quickly restores the hair to its original brilliancy and vigor.

Parisian Sage can always be had from T. J. Parle, and is a delightful and easily applied treatment that will never fail to act as a real and lasting benefit to your hair and scalp.

As soon as it has arrived and can be installed, the plant will be ready for operation, it is said.

Mr. Dalby has announced that after next May he will give a twenty-four hour a day service.

### Brink-Bellows.

A romance in the smart set that has been the interest of a large coterie of friends, had its culmination last evening in the twilight wedding of Miss Helen Marie Brink, the daughter of Mr. and Mrs. J. R. Brink and Mr. Harold Honnold Bellows, the son of Mrs. George P. Bellows. The marriage took place at the Brink home on East Sixth and the service was read by the Rev. Robert Lyle Finch, pastor of the First Christian church, the Rev. Gilbert S. Cox, pastor of the First Methodist church, assisting. The home was artistic in decorations of pink and green, southern smilax, plumosus fern and Killarney roses predominating. The marriage took place in the music room. Tall pedestals twined with smilax and surmounted with baskets of Killarney roses were placed at the

side of an altar of ferns and palms, and from these pedestals chains of smilax were drawn to smaller pedestals, forming a floral aisle in which the bridal party stood. Before the ceremony Mrs. Fred P. Robinson sang "Because" by D'Hardelot, and "I Love You Truly" by De Koven. For the professional, Miss Brownie Toel played the wedding march from Lohengrin and during the ceremony the melody

gifts from the groom's mother, and was brought by her from a recent trip abroad. After the ceremony a buffet supper was served. The living and dining rooms were adorned with southern smilax and roses. The dining table was centered with shower bouquet holder of crystal, filled with Killarney roses. Mrs. R. P. Hosmer, Mrs. Payette Bellows, Mrs. C. J. Funk and Mrs. Olliver Bovard served at the table and they were assisted by Miss Elise Jackson, Miss Laura Barnmann, Miss Kitty Grems and Miss Alice Porter. Other friends assisting were Mrs. G. B. Roseberry, Mrs. A. K. Frank and Miss Mildred Bellows. Mr. Bellows and his bride left last night on a honeymoon outing of a couple of weeks. Their first destination will be Chicago and beyond that their visit has been kept a secret. The bride's going away gown was a black chiffon broadcloth coat suit and with it she wore a black velvet toque faced with pink and trimmed with pink French tips. The bride's gifts to her maids were gold friendship circles, set with pearls, and the groom's gift to his best man was a scarf pin of similar setting.
